M/S 525

Mr. Stan Vendetti  
Director, Environmental Health Services  
Benton Franklin Health District  
506 McKenzie Street  
Richland, Washington 99352

Dear Mr. Vendetti:

This letter is to bring you up-to-date on the upcoming EPA investigation at Pasco Sanitary Landfill. As we've discussed, a sampling plan is being developed for the site. The completion of this plan is delayed a few weeks. Because of this delay, I have not yet contacted the other persons you mentioned who may have interest in this project. I plan to do so as soon as appropriate.

I expect to send the plans to you and other county officials in April/May. I then look forward to meeting with you to discuss this matter.

Thank you for your time and help thus far in the project.

Sincerely,

Lori Cohen  
Site Manager
